

ARABIC BIO

Organic Gum Arabic

CARACTERISTICS

ARABIC BIO is an **organic** Gum Arabic in powder, selected for the production of **Organic wines**.

ARABIC BIO does not contain additives and preservatives and its use does not imply modifications to the wine's acidity or to the SO₂ content.

ARABIC BIO, thanks to an exclusive production procedure, is easily soluble in water or directly into the wine.

ARABIC BIO does not alter the natural color of the treated wines, improves the colloidal stability and concurs to avoid formation of turbidity and precipitations, even during the maturation in bottle.

APPLICATIONS

ARABIC BIO improves the chemical-physical stability of **Organic wines** without altering their organoleptic characteristics.

DOSAGE AND INSTRUCTIONS FOR USE

5 - 30 g/hl, according to needs.

ARABIC BIO can be dissolved in cold water, 1:10 ratio, or directly into the wine to be treated; carefully homogenize the mass.

COMPOSITION

ORGANIC Gum Arabic in powder: 100%

PACKING

1kg bag.

ARABIC BIO is in compliance to the Regulation CE 231/2012.
